

SAMSUNG CHOOSES EBUYER.COM FOR EXCLUSIVE RELEASE OF BLUE N310 NETBOOK

Howden, UK – Ebuyer.com, one of the UK's leading retailers of brand name computer and consumer electronics are offering customers an exclusive blue Samsung N310 netbook for the great price of only £364.98. Samsung has chosen Ebuyer exclusively for the release of the 'blue' netbook in the UK. This very exclusive offer from Ebuyer is available on the web until stocks last.

The Netbook is fast becoming the choice of many trendsetting on-the-go professionals living a fast paced life with a need to connect to the digital world on a constant basis whether they are at home or travelling.

The Samsung N310 10" netbook is a smart, stylish and very powerful device designed to satisfy even the most demanding computing enthusiast. The netbook can be used for storing and sharing information, photos, music and for browsing the internet.

The 10" WSVGA Glare SuperBright© Gloss LED Display has resolution of 1024 x 600, making the netbook, the world's largest mini netbook. Its innovative design gives it an extra edge for maximum mobility and productivity. The design ergonomics of the netbook makes it very user friendly.

With an Intel Atom processor of 1.6 Ghz and memory of 1GB DDR2 800MHz, the netbook is a tiny wonder and a pure delight to the user. A 160GB SATA hard drive of 5400RPM ensures that the netbook has enough storage space for any discerning user who has an unending need for space to store data.

The N310 netbook comes with a Windows XP operating system and an array of software options like the Samsung Magic Doctor, Samsung Update Plus, Easy Display Manger and many others. For extra protection, the security features are enhanced and the netbook comes with a BIOS Boot Up Password / HDD Password and a Kensington Lock Port. The user also gets a free McAfee Virus Scan program and a Samsung Recovery Solution III. Additional features of the Samsung N310 netbook is in its improved audio system powered by the EDS

(Enhanced Digital Sound) effect and 3 Watts Stereo Speakers (1.5W x 2). The 84 keyboard comes with a silver nano technology that is anti-bacterial and has a scroll type flat touch pad.

Professional netbook users have a greater need for networking technology. Reflecting this need, the N310 comes with a wired Ethernet LAN, Wi-fi and Bluetooth so the user is never out of options for connecting to the information highway.

For a netbook, weight does matter since netbook users are profiled mainly as highly mobile professionals and so weight is a pertinent decision maker in purchasing of netbooks.

The Samsung N310 weighs only 1.23 KGs, making it an easy travelling companion and comes with a 1 year collect and return manufacturer warranty.
